

# Privanova

RESEARCH & CONSULTING

**PARTICIPATION IN EU-FUNDED PROJECTS**

WHO WE ARE, WHAT WE DO & HOW WE CAN HELP YOU

# WHO WE ARE

---

**PRIVANOVA IS THE LEADING KNOWLEDGE PROVIDER FOCUSING ON RESEARCH, INNOVATION MANAGEMENT AND COMPLIANCE SERVICES.**

Privanova is an innovative company investing in R&D. We operate at the interface between **privacy, technology, and policy.**

Our activities focus on the analysis of **legal, ethical and technological** issues, often from the **law enforcement** perspective.

Our team includes former **INTERPOL** and **UN** professionals experienced in managing the whole EU project life-cycle.

Together, our consultants have initiated, managed or successfully participated in more than 150 FP7, H2020 and Horizon Europe consortia.

# EXPERTISE

---

We bring our subject matter expertise and experience in EU project management to the consortia we participate in.

Besides **legal** and **ethics compliance**, we provide **law enforcement representation**, perform **Privacy Impact Assessments**, implement **Privacy by Design**, consult on issues such as **cybercrime**, **terrorism**, etc.

# WHAT WE DO

---

## END-TO-END PROJECT LIFE CYCLE MANAGEMENT

As consortium partners, we can independently run or help you lead the concept note development, consortium building, DoW preparation, and proposal submission and communication, dissemination and exploitation.

### 1 PRIVACY BY DESIGN & RISK MANAGEMENT

Our interdisciplinary approach to privacy by design relies on legal, technical and organisational solutions. We translate complex legal requirements into understandable actionable items and help the consortium partners implement them.

### 2 ETHICS AND COMPLIANCE

Privanova can gather and help the consortia interpret their end-users needs. We ensure that project outcomes correspond to the end-users' privacy, data protection and ethics requirements.

### 3 END-USER REQUIREMENTS

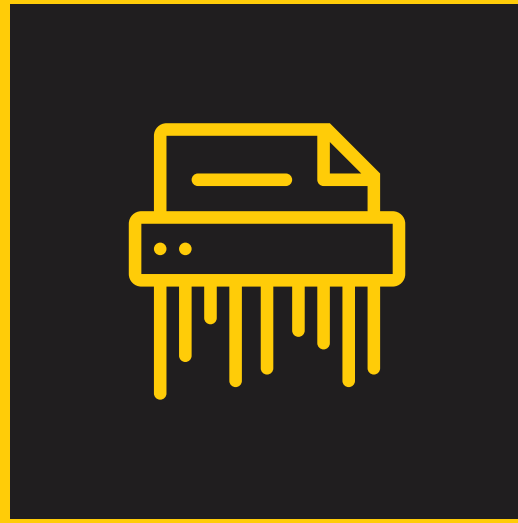

We ensure that the consortium proactively demonstrates compliance, implements Ethics Requirements and submits ethics deliverables. Based on the needs of the project, we can form and chair the Ethics Advisory Board, appoint a DPO, and participate in the project Risk Management component.

### 4 LAW ENFORCEMENT AND FORENSICS

Working with INTERPOL's 190 member countries allowed us to develop strong relationships with high-level police officials and experts. Our pool of law enforcement experts and forensic scientists can validate project outcomes following their operational needs, and participate in project workshops and other events.

### 5 COMMUNICATION AND DISSEMINATION

Our communication, dissemination and exploitation competences range from Stakeholder Engagement and Community Building to Event organisation, Publishing, and Online Presence.

## DATA PROTECTION

- Legal Analysis & Drafting
- GDPR, eCommerce
- Impact Assessments
- Policy Recommendations
- Technology Regulation
- Privacy by Design
- Personal Data Transfers

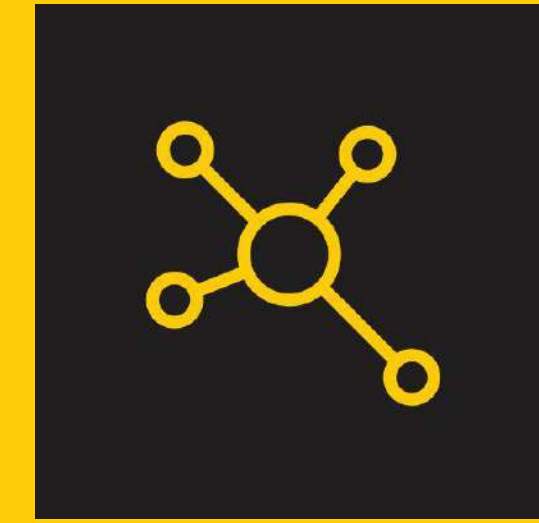

## ETHICS COMPLIANCE

- Ethics Self-Assessment
- Pre-submission checks
- Ethics Requirements
- Informed Consent Notices
- Deliverables Screening
- Charging the Ethics Board
- Acting as Project DPO

## INFORMATION SECURITY

- InfoSec Assessments
- Strategy & Governance
- Threat Management
- Incident Response
- Data Breach Investigation
- Human Factor & Technical Security

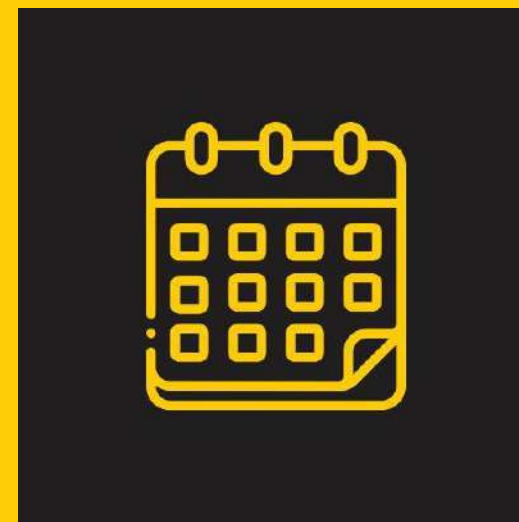

## CYBERCRIME AND TERRORISM

- Cybercrime Investigation
- Cyber-Forensics
- Cybercrime & Terrorism Financing
- Blockchain
- Cryptocurrencies
- Darknet

## LAW ENFORCEMENT

- Bringing LEAs to Projects
- Managing the Pool of LE and Forensic Experts
- Gathering, Analysing & Implementing Requirements
- Validating Project
- International Cooperation
- Biometrics, AI for LE

## PROJECT MANAGEMENT

- Consortium Building
- DoW Drafting & Evaluation
- Budgeting & Finance
- Leading WPs and Tasks
- Review Preparation
- Liaising with the PO
- Supporting the Coordinator

## OUTREACH & DISSEMINATION

- Research Data Management
- Stakeholder Engagement
- Event Organisation
- Website, Logo & Social Media
- Publications, Newsletters
- Policy Briefs and Roadmaps
- Training, Demonstrations

## GO-TO-MARKET & EXPLOITATION

- Individual & Joint Exploitation Strategy
- Proof of Concept
- Exploitation Workshops
- Project Business Plan
- Go-to-market Strategy
- Start-ups & Joint Ventures

# ETHICS

---

All EU-funded projects must comply with [ethical principles](#). Ethics compliance is assessed on all stages of the project life: from the Ethics Issues Table and the Ethics Self-Assessment, over the Ethics Review during the evaluation phase to the Grant Agreement and regular Checks and Audits after the signature.

Based on the Consortium needs, Privanova can manage [ethical issues](#).  
In particular, we can:

- Draft content in Work Packages
- Write chapters on Ethics, Confidentiality, Security
- Perform Ethics Self-Assessment
- Fill the initial Ethics Issues Table
- Organise and chair the [Ethics Advisory Board](#)
- Implement the EC's Ethics Requirements
- Draft Ethics Deliverables and Reports
- Act as the project's [DPO](#)
- Draft Informed Consent Forms
- Organise Confidentiality screening of deliverables
- Provide ad-hoc advice on Ethics issues

## ETHICS COMPLIANCE IN EU-FUNDED PROJECTS

- [MARVEL](#)
- [IOT-NGIN](#)
- [AI4HEALTHSEC](#)
- [DIGICARE4YOU](#)
- [DRG4FOOD](#)
- [ELOQUENCE](#)
- [IMERMAID](#)

# PROPOSAL MANAGEMENT

---

Privanova offers **EU Proposal Management services** to help our clients identify the best funding opportunities, build a winning consortium around their innovative idea, write a competitive proposal, and apply for EU funding. We support SMEs, large companies, and research teams in applying for **Horizon Europe**, **EIC Accelerator**, **Erasmus+**, and other EU funding schemes.

Our team is experienced in winning grants and managing the whole EU project life-cycle, from concept development and consortium building to proposal writing, budgeting, and more. Our process involves a thorough analysis of the client's needs and objectives, followed by a tailored approach to proposal drafting that takes into account the specific requirements of the funding scheme and the client's unique value proposition.

# LAW ENFORCEMENT

---

As former **INTERPOL** professionals managing projects in which the organisation took part, we established excellent work relationships with law enforcement officials and forensic experts from all around the world.

During the consortium-building phase, we **search for LEAs** with relevant expertise and **bring them on board** as partners or advisory board members.

When the project starts we manage the LEAs, and interface between them and other consortium partners. We ensure that the LEAs view is represented, and their legal, technical and operational requirements are understood and followed.

# CLUSTERING

---

Privanova is at the forefront of fostering collaboration through clustering initiatives in the **law enforcement, energy and health sectors.**

By bringing together EU-funded projects, industry experts, and key stakeholders, Privanova creates communities dedicated to knowledge sharing, innovation, and collective problem-solving.

# LEA PROJECTS CLUSTER

The [LEA Projects Cluster](#) is a collaborative initiative led by Privanova. It unites 37+ EU projects focusing on issues of interest to law enforcement community. It fosters [synergies among projects](#) by sharing knowledge, resources, and best practices.

## MEMBERS

# ENERGY NEXUS CLUSTER

The Energy Nexus Cluster is a dynamic initiative aligned with the European Green Deal, designed to bring together innovative projects and stakeholders in the energy sector. It focuses on increasing the impact of green energy projects and contributing to the REPowerEU Plan.

## MEMBERS

# SELECTED PROJECTS

---

**IAMI** is developing an AI-powered system to enhance entity identification in case management. At the core of the system is the 'Identity-Attributes-Matrix (IAM)', a 3D construct designed to handle a wide range of identity-related attributes and facilitate large-scale entity identification.

 HORIZON-CL3-2023-FCT-01  
 Grant: 101168272  
 Feb. 2025 - Jan. 2028  
€ 3.746.252,50

**SYNAPSING** develops blood biomarkers for faster diagnosis, distinguishes MDs from NDs, and predicts treatment response. Using brain tissue and stem cell models, it explores synapse dysfunction while assessing socioeconomic impacts on mental health.

 HORIZON-HLTH-2024-DISEASE-03-two-stage  
 Grant: 101156566  
 Jan. 2025 - Dec. 2029  
€ 6.999.921,91

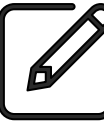

**SAFEHORIZON** combats Crime-as-a-Service (CaaS) by using AI to extract legal evidence from web sources and law enforcement data. It delivers interoperable tools, a monitoring platform, and a correlation engine.

 HORIZON-CL3-2023-FCT-01  
 Grant: 101168562  
 Sep.2024 - Aug. 2027  
€ 3.998.925

**GROUNDUP** aims to build a strong CBRNE innovation ecosystem in the Southern CEE region, uniting academia, industry, and government to drive sustainable regional and EU-wide impact.

 HORIZON-EIE-2024-CONNECT-02  
 Grant: GAP  
  
€ 499.593,76

**SPARKUP** aims to enhance research and innovation in CBRNE preparedness by improving career interoperability across academic and non-academic sectors in the Southern CEE

 HORIZON-WIDERA-2024-TALENTS-03  
 Grant: GAP  
 June 2025 - June 2028  
€ 2.284.706,25

**GEOFLEXHEAT** aims to revolutionize the way geothermal energy is harnessed and utilized, particularly focusing on industrial heat applications.

 HORIZON-CL5-2024-D3-01  
 Grant: 101172780  
 Oct. 2024 - Sep. 2027  
€ 2.996.262,50

**CONVERT** develops certified, flexible IT training with micro-credentials. It covers emerging skills like AI, data analytics, cybersecurity, and web development, supporting the EU's reskilling efforts.

 ERASMUS-EDU-2023-PI-FORWARD-LOT2

 Grant: 101132732

 Jan. 2024 - Dec. 2026

€ 899.693

**SECUR-EU** fosters a cybersecurity culture among SMEs by developing advanced security solutions and proactive defence strategies. It enhances digital resilience through testing tools, SME-LEA collaboration, and a cooperative network, aligning with EU cybersecurity efforts like NIS2.

 DIGITAL-ECCC-2022-CYBER-03

 Grant: 101128029

 Nov.2023 - Oct. 2026

€ 2.437.687,13

**ELOQUENCE** aims to understand unstructured dialogues and translate them into explainable, safe, knowledge-grounded, trustworthy and bias-controlled language models, aligning with EU strategies and future legislation.

 HORIZON-CL4-2023-HUMAN-01-CNECT

 Grant: 101135916

 Jan. 2024 - Dec. 2026

€ 5.072.543,75

**iMERMAID** will investigate, quantify and combat chemical pollution at the Mediterranean sea through a multidisciplinary methodology. The project will combine scientific, societal and political aspects to achieve a comprehensive understanding of the issue.

 HORIZON-MISS-2022-OCEAN-01  
 Grant: 101112824  
 June 2023 – May 2026  
€ 7.893,477,38

**POLIICE** will offer, research, validate and demonstrate array of innovative lawful interception measures at cloud, network and edge level that will enable LEAs to efficiently overcome the new age challenges and enable high throughput of lawful interception.

 CL3-FCT-2021-01-02  
 Grant: GAP  
 Nov. 2022 - Oct. 2025  
€ 4.999.788

**GLOCALFLEX** will mobilise demand-response solutions & services for prompt horizontal scaling of flexible local energy systems by means of easy access and low barrier energy flexibility markets to increase participation of the consumers in all sectors.

 CL5-2022-D3-01-12  
 Grant: GAP  
 Jan. 2023 - Dec. 2026  
€ 10.276.311

**DRG4FOOD** delivers trust in a data-driven food system by implementing Digital Responsibility Goals for the food sector and enables innovation in food safety, sustainability, personalized nutrition, reduction of food waste.

 GOVERNANCE-01-10  
 Grant: GAP  
 Dec. 2022 - Nov. 2025  
€ 4.000.000

**FACILITATE** aims to give clinical trial participants access to their health data, enabling better decision-making with healthcare professionals and allowing data reuse in future research.

 JTI-IMI2-2020-23-two-stage  
 Grant: 101034366  
 Jan. 2022 – Dec. 2025  
€ 3.260.000

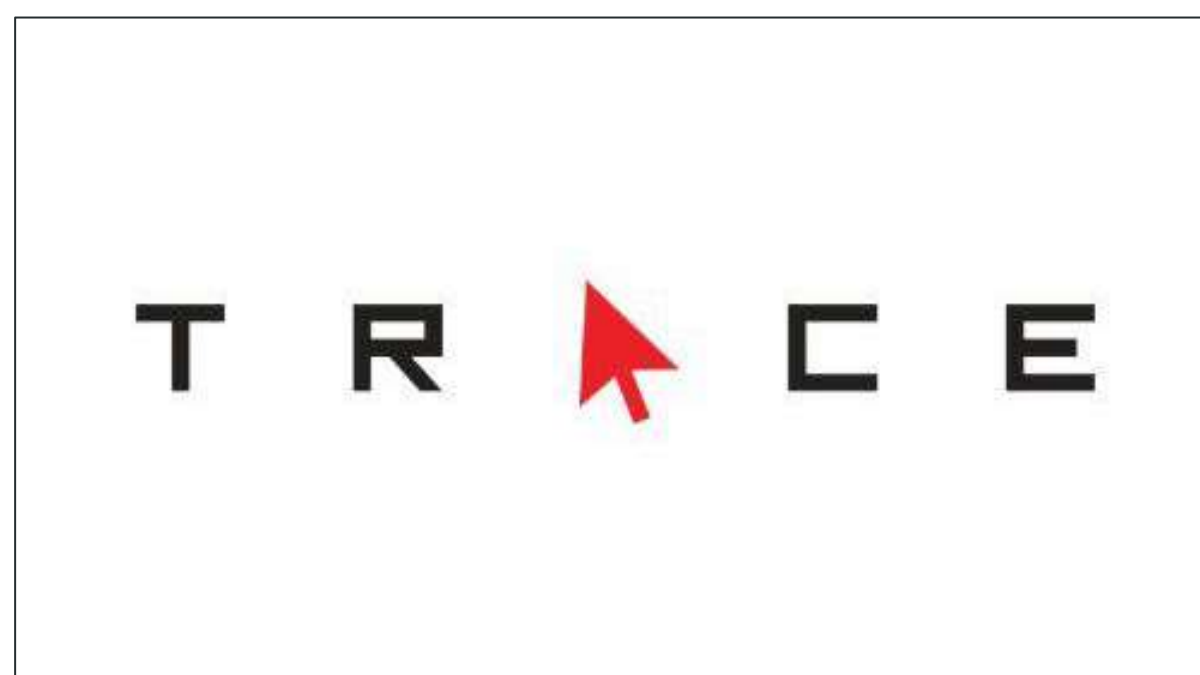

**DIGICARE4YOU** aims to deliver an intersectoral innovation - digital tools for early screening, prevention and management of type 2 diabetes and hypertension. More than 10000 families will be targeted in large-scale medical studies.

 H2020-EU.3.1.5  
 Grant: 945246  
 Apr. 2021 – Sep. 2025  
€ 4.271.827,50

**CYBERSPACE** will increase and enhance reporting of cybercrime to law enforcement authorities. It provides public authorities with an accurate picture of the real extent of cybercrime thru investigative techniques and tools (including for digital forensics).

 ISFP-2020-AG-CYBER  
 Grant: 101038738  
 Dec. 2021 - Nov. 2024  
€ 3.217.392,63

**TRACE** addresses illicit financial flows by co-developing with LEAs and improving investigation tools and systems in terms of their quality and speed, responding to old and emerging forms of organised crime, money laundering and terrorist financing.

 SU-SEC-2020  
 Grant: 101022004  
 July 2021 - July 2024  
€ 6.980.082,50

**CC-DRIVER** will use a multidisciplinary approach from the domains of psychology, criminology, anthropology, neurobiology and cyberpsychology to investigate, identify, understand and explain drivers of new forms of criminality.

 SU-FCT01  
 Grant: 883543  
 May 2020 – April 2023  
€ 4.997.630

The logo for IOT-NGIN features the text "IOT-NGIN" in a bold, blue, sans-serif font. The letter "O" in "IOT" is replaced by a blue gear icon with a signal wave emanating from it.

**IOT-NGIN** introduces novel research and innovation concepts, to establish itself as the “IoT Engine” that will fuel the Next Generation of IoT as a part of the European Next Generation Internet. It will be validated via more than 30 types of IoT devices.

 ICT-56-2020  
 Grant: 957246  
 Oct. 2020 – Sep. 2023  
€ 7.998.622,50

The logo for MARVEL features the word "MARVEL" in a blue, sans-serif font. To the left of the text is a blue square icon containing a white circular graphic with a signal wave and a gear-like element.

**MARVEL** delivers a Edge-to-Fog-to-Cloud ubiquitous computing framework that enables multi-modal perception and intelligence for audio-visual scene recognition, event detection in a smart city environment.

 ICT-51-2020  
 Grant: 957337  
 Jan. 2021 – Dec.2023  
€ 5.998.086,25

**AI4HEALTHSEC** proposes a dynamic and self-organised artificial swarm intelligence solution to improve detection and analysis of cyber-attacks and threats on health care infrastructure. It increases the knowledge on the current cyber security and privacy risks.

 SU-DS05  
 Grant: 883273  
 July 2020 – June 2023  
€ 4.998.948,75

**CYRENE** will enhance security, privacy, resilience, accountability and trustworthiness of Supply Chains through the provision of a novel and dynamic Conformity Assessment Process that evaluates the security and resilience of supply chain services.

 SU-ICT-02

 Grant: 952690

 Oct. 2020 – Sep. 2023

 4.992.750
